

# ASSEMBLY THEORY

**New morning, very soft  
mangoes.**

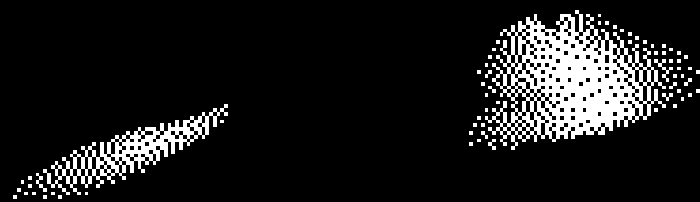

Dirty tabletop. Pencil writhes off  
paper and onto walls. Solve the  
abundance conjecture. I am  
weak. Take what was promised,  
find the unpromisable amongst  
very large numbers.

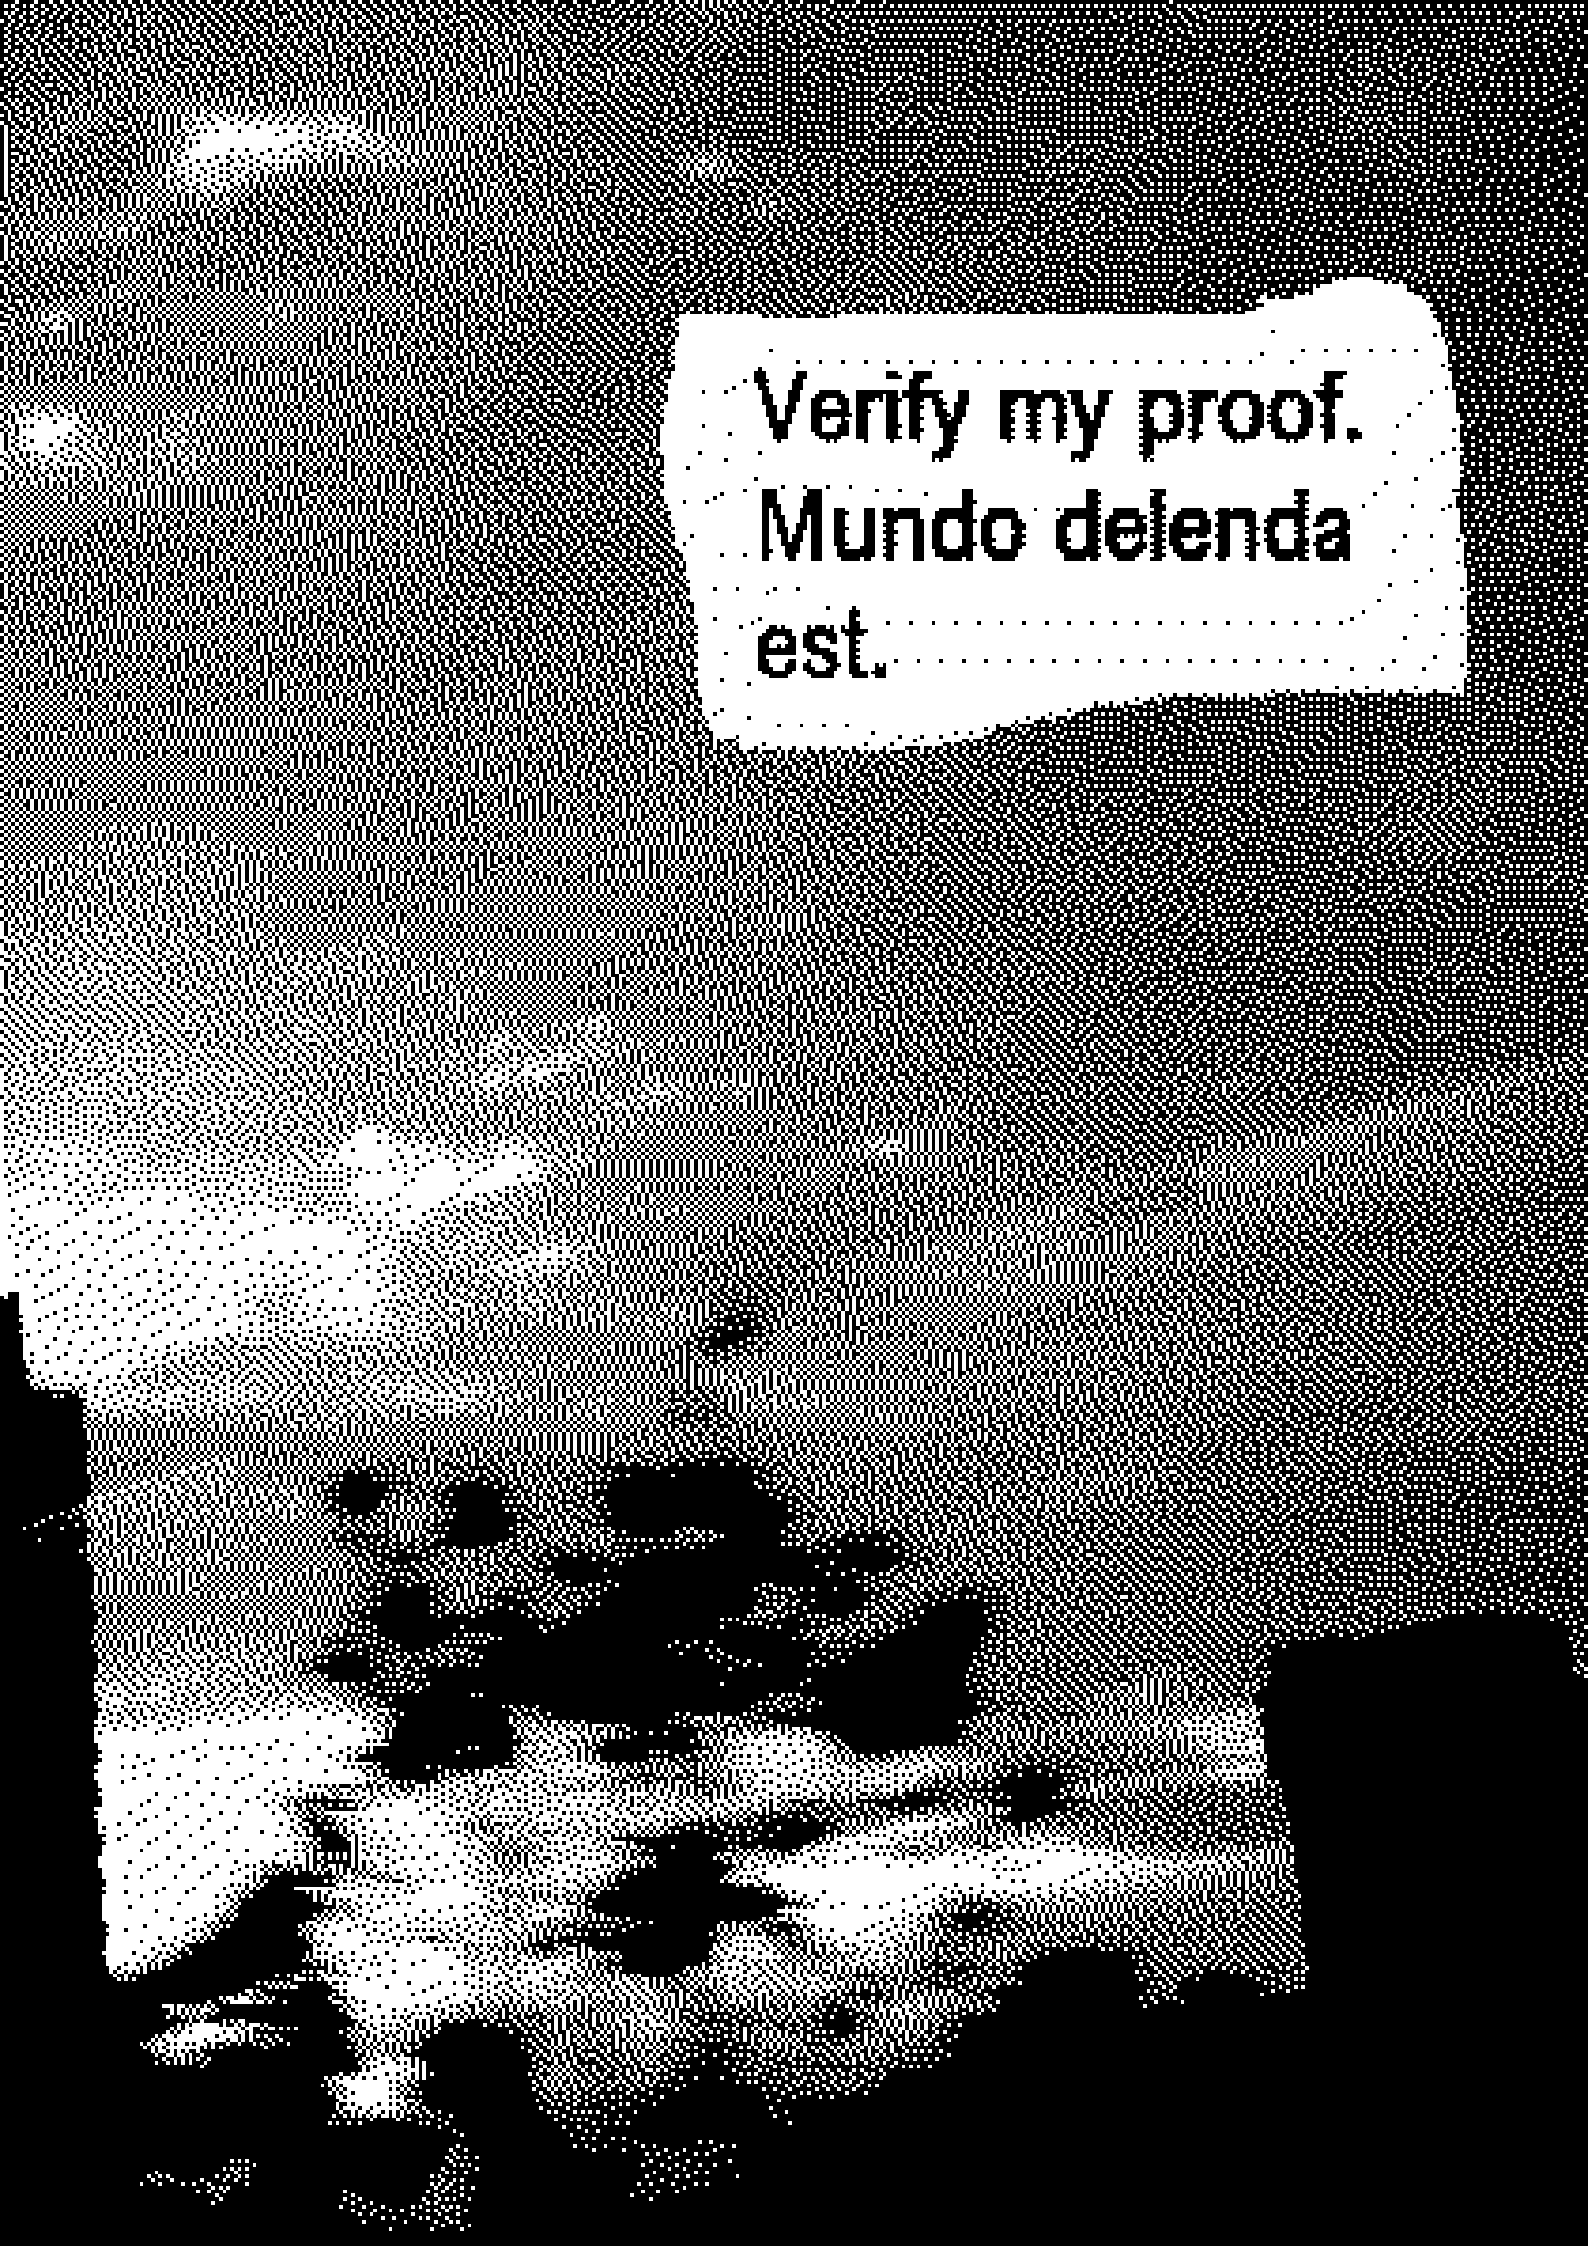

A black and white photograph of a piece of paper with a chicken scratch on it. A speech bubble is overlaid on the scratch, containing the text: "Fields of smog, eyes in cameras, blunted pencils. Look at this chicken scratch."

Fields of smog, eyes  
in cameras, blunted  
pencils. Look at this  
chicken scratch.

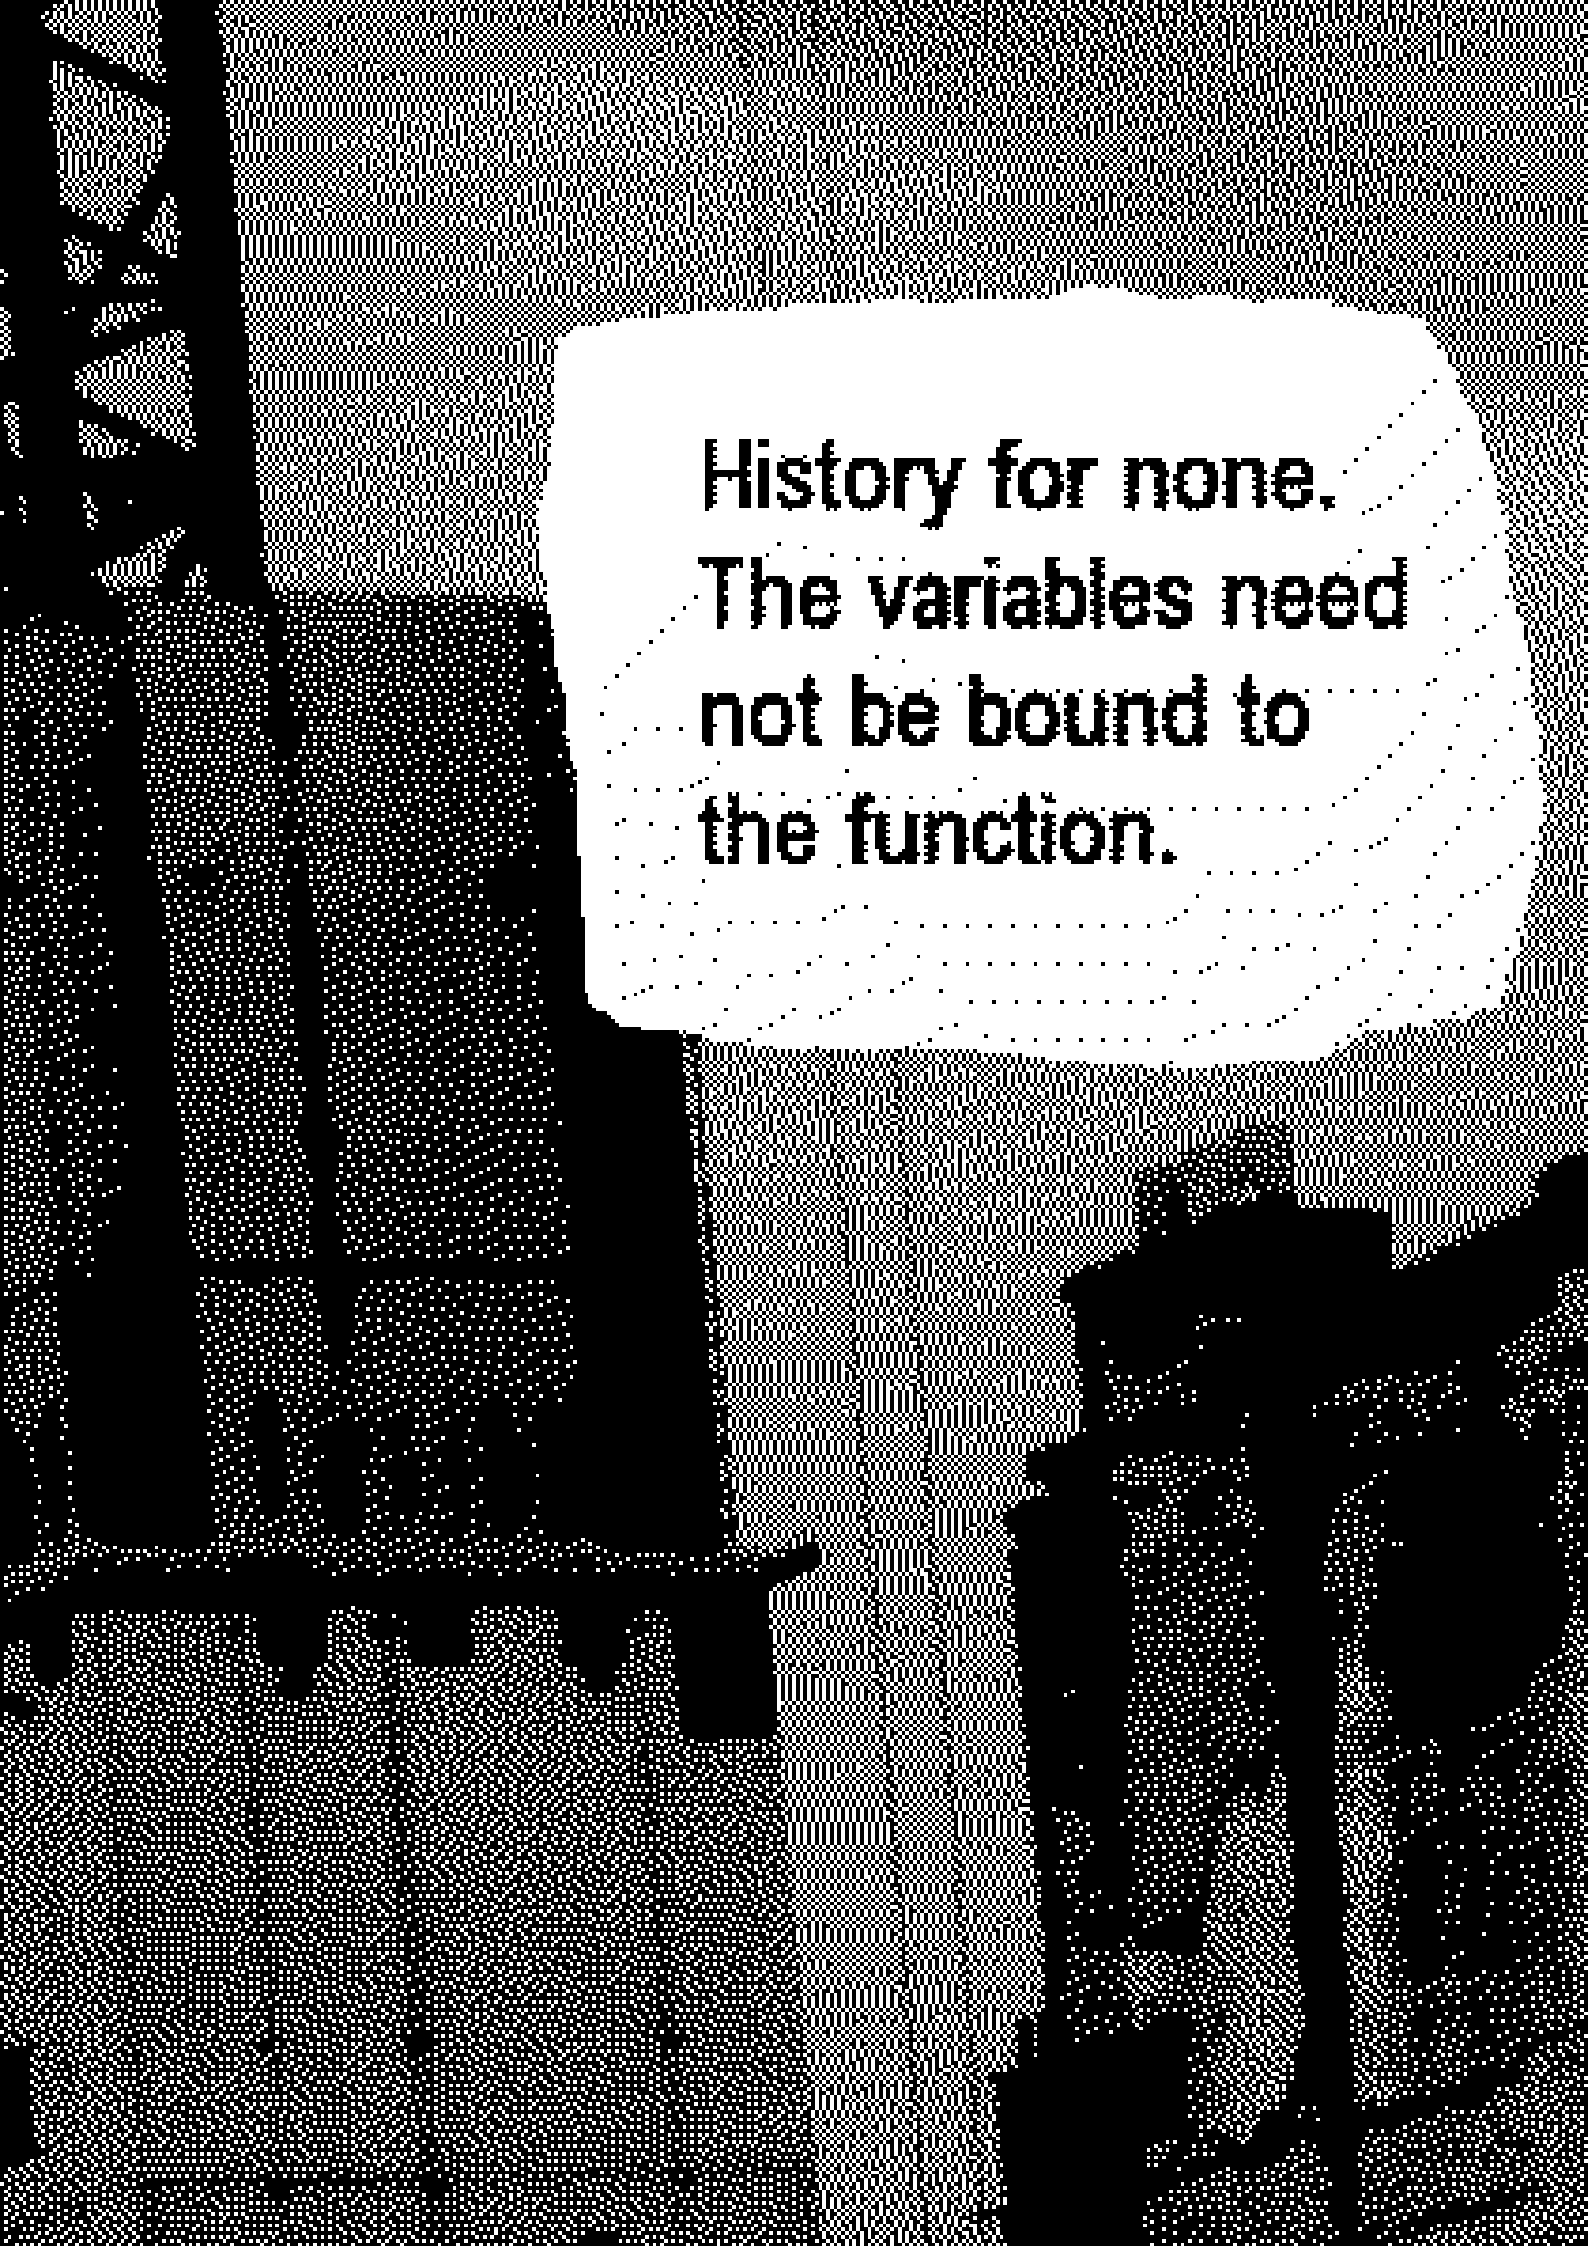

A close-up, high-contrast black and white photograph of a hand holding a piece of paper. The hand is positioned on the left side of the frame, with fingers gripping the edge of the paper. The paper is held at an angle, and the text on it is clearly visible. The background is dark and out of focus.

If what we have  
is amongst  $W$   
elements, there  
exists... Look at  
this matrix,  
sharpened.

Verify my proof.  
Mundo delenda  
est.

**History for none.  
The variables need  
not be bound to  
the function.**

**Off the page, off the mind.**
